1-Wire iButton reader

The iButton tag reader is an essential component of the GT-9 fuel controller, specifically designed to read iButton tags.

Featuring a compact and wall-mounted design, this tag reader offers seamless integration and reliable performance.

Specifically designed to read iButton tags, ensuring compatibility and reliability.

Reliable contact tag reader, providing consistent and accurate tag reading capabilities.

Operates with a single wire for data and GND, facilitating straightforward installation.

Ideal for various applications requiring reliable tag reading functionality.

Datasheet

INTERFACE :

1-wire

READ RANGE :

contact

TAG ID LENGHT :

6 bytes

WORKING TEMPERATURE :

-40 to +85 C

WEIGHT :

30 g

EXTERNAL DIAMETER :

24 mm

LED :

NO

TAG TYPE :

iButton DS1990

THREAD DIAMETER :

20 mm

INSTALLATION :

Panel mounted

ENVIROMENT :

IP 67

VIOTYS
